

3 versions:

Light

Complete system with all the features you need to easily manage your newsletter for sales, marketing and promotional purposes.

Pro

Increased capacity and more detailed information on each campaign incl. tracking of links in e-mails, feedback on persons who unsubscribe and much more.

X-Pro

For companies with big subscriber lists, many news list categories and advanced needs. Ideal for large companies with many users.

You can upgrade your Newsmailservice.com database when your customer list grows – and you will continue working with your existing data.
